MichiganTech.

*Invasive Species:
The Past, Present, and Future of Lake State Ecosystems*

Sponsored by
The Michigan Society of American Foresters (UP Chapter)
Xi Sigma Pi, Alpha Eta Chapter (MTU)

3-4 April, 2003
Houghton, Michigan
Michigan Tech School of Forest Resources and Environmental Science

The 2003 Xi Sigma Pi Symposium/SAF Meeting will take a different approach from other scientific and professional meetings on this subject. Rather than cataloging the range of exotic species that are currently the focus of attention, it will step back and discuss the broader questions about exotic species while drawing from the wealth of examples available.
